

Every Wednesday, From 09:30 to 10:30 AM  
MDC.C Conference Center, Dendrite 2/3  
Robert-Rössle-Str. 10, 13125 Berlin

# Systems Biology Lectures

## Proteins & Proteomics

Date	Speaker	Topics
28 October 2015	<b>Matthias Selbach</b> , MDC	Shotgun proteomics: an introduction
04 November 2015	<b>Jeroen Krijgsveldt</b> , EMBL	Proteome meets genome: dynamics of chromatin composition in embryonic stem cells
11 November 2015	<b>Oliver Daumke</b> , MDC	Structure-function studies in dynamin superfamily proteins
18 November 2015	<b>Knut Reinert</b> , FU Berlin	Bioinformatic Analysis of Proteomic Data using OpenMS and KNIME
25 November 2015	<b>Mathias Dreger</b> , Caprotech	Capture Compound Mass Spectrometry: A Chemoproteomic approach to profile small molecule-protein interactions
02 December 2015	<b>Marcus Bantscheff</b> , Cellzome	Drug action in the context of the proteome
09 December 2015	<b>Ulrich Stelzl</b> , MPI Molecular Genetics	Yeast Two-Hybrid
06 January 2016	<b>Jesper Olsen</b> , CPR Copenhagen	Quantitative Phosphoproteomics to delineate cell signaling pathways
13 January 2016	<b>Phillip Selenko</b> , FMP	NMR
20 January 2016	<b>Michiel Vermeulen</b> , University Nijmegen	Quantitative interaction proteomics for epigenetics
27 January 2016	<b>Erich Wanker</b> , MDC	Neuroproteomics
03 February 2016	<b>Anne-Claude Gavin</b> , EMBL	Protein Metabolite Interactions
10 February 2016	<b>Gunnar Dittmar</b> , MDC	Targeted Proteomics / Proteomics of the Ubiquitine Proteasome System
