

Installation:

1.

Install the MSP430 Installer by starting setup.exe

2.

Run Cygwin and make a CVS checkout:

```
cvs -z3 -d:pserver:anonymous@cvs.sourceforge.net:/cvsroot/tinyos co tinyos-1.x
```

3.

Go to the downloads tab and use the drop-down menu for choosing your platform

Copy

the respective <ScatterWeb platform> target,
the respective <ScatterWeb platform>_flash.target
and esw.extra

(all included in the self-extracting zip file)

to:

```
$TOSROOT/tools/make (it applies: $TOSROOT = ../&TOSDIR)
```

4.

Extract <ScatterWeb platform>.zip and copy the directory <ScatterWeb platform> to:

```
$TOSDIR/platform/ (it applies: $TOSDIR = $TOSROOT/tos)
```
